## I. Introduction

Aruba Youth Impact (AYI) is a newly launched national youth platform for the youth by the youth. As an initiative of **Heart-Centered Leadership Foundation**, the youth platform grew out of the foundation's philosophy: connecting youth to their heart, their passion, and their purpose.

AYI flourished from working together with young people who showed an interest in becoming actively involved in community development and change; young people who expressed concerns about their community but not getting the opportunities to openly and actively work on initiating change.

AYI aims to provide young people between the ages of 14 and 25 the opportunity to have their say and be actively involved as *impacters* in their community. Through participation in AYI, young people will promote participatory action, enable the development of awareness and untapped skills that unleash their full potential.

AYI's first pilot project is Impact Café: a series of gatherings with the aim of engaging young people in conversation and discussing challenges and solutions on different topics. Through these Impact Cafés, young people can share knowledge and experiences on different topics they confront as part of the youth of Aruba.

The first edition of Impact Café was held in July 2018 during the school holidays. Held on three (3) consecutive Saturdays, the sessions were held in the districts of San Nicolas, Paradera and Noord.

The project counted with 43 participants, ranging from ages 13 to 21, and hailing from all over the island.

The project was co-financed by CEDE Aruba, with support by Futura and Aruba's SDG Commission. Sponsors of the first three Impact Cafés included Aruba Tourism Authority, Compra Ltd., Sams, Office Systems.

This report will showcase the results of the three Impact Cafés hosted in July: the information gathered with regards to the good, the bad, and the solutions proposed by participants on the topics of education, health, participation and protection in Aruba.

## II. Project Description

Impact Café is a series of gatherings where the goal is to create and promote a safe space where young people can come together, share ideas, and propose solutions to issues they experience in their community, at school, at home. Impact Café offers young people the opportunity to have their voices heard and empowers them to become *impacters* in their lives and in their community.

The idea behind the Impact Café comes from the World Café model, in which the purpose is to create collaborative and participatory dialogue: encourage conversation as a means of sharing knowledge and shaping our future<sup>1</sup>. The name for Impact Café comes from the possibility of initiating Impact through dialogue and together shaping what youth want to see change in their surroundings.

The basis for the first Impact Café is the United Nations Convention on the Rights of the Child (UNCRC) and four key areas: Education, Health, Participation and Protection. In 2015, a report was published on The Situation of Children and Adolescents in Aruba, indicating key findings and proposed recommendations to promote the health, education, participation and protection of children and adolescents (and women). Building from these findings, the aim is to engage young people participating in the Impact Café in expressing their experiences with these 4 areas and what solutions they propose for the years to come.

The mission of the Impact Café aligns with the promotion of the Sustainable Development Goals (SDGs) in Aruba: the four aspects of protection, participation, health, and education are reflected in SDG 3 'Good Health and Well-Being', SDG 4 'Quality Education', SDG 10 'Reduced Inequalities', SDG 16 'Peace, Justice, and Strong Institutions', and SDG 17 'Partnership For The Goals'. As a youth organization promoting participation, inclusion, and engagement, Heart-Centered Leadership Foundation and AYI encourages the participation of young people in decision making initiatives. Through conversations about these four areas, ideas and solutions can be presented by young people contributing to the achievement of SDGs in Aruba.

### II.1 Goal

To engage youth in dialogue about challenges and ideas and propose active solutions that are relevant and important to their experiences and realities as youth on Aruba

## 11.2 Objectives

1. To organize 3 Impact Cafés in 3 districts in Aruba for a total of 60 participants between the ages of 14 - 21
2. To initiate youth-centered dialogue revolving around 4 key areas in the Convention on the Rights of the Child: Education, Health, Participation and Protection
3. To come with solutions to concerns regarding the 4 key areas (Education, Health, Participation and Protection) from the point of view of young people
4. To present the collected solutions from 3 Impact Cafés to relevant private and public sector stakeholders.

## 11.3 Group Facilitators

To facilitate the group process, Impact Café has a set of youth group facilitators, called host and co-hosts. The role of the host and co-host is to assist in small groups, facilitate conversation, and encourage and stimulate participation by supporting the participants through listening, asking follow-up questions, and helping create a safe space where participants feel comfortable talking and sharing. Each host is supported by a co-host, who helps observe, take notes,

assist the host and support the participants. To prepare the hosts and co-hosts for their role and responsibilities during the events, a group dynamics workshop was organized, facilitated by Ms. Clementia Eugene.

## 11.4 Event Agenda

The program of each Impact Café counted with an icebreaker, breaking the participants into groups of 5, and then going into two rounds. The first round was known as 'The Good and The Bad', in which each group received 5 minutes at each 'table' that represented one of the four topics. At each table, the participants had to write down on post-it notes what they found good (orange post-it notes) and what they found bad (yellow post-it notes) about each topic. After each group had visited one of the 4 'tables', the next round was announced: 'The Solutions' round, where they had 20 minutes at each table to discuss and propose solutions to different challenges in each topic.

### III. Results

Three Impact Cafés were held in July 2018. The first one in San Nicolas on Saturday, 7 July 2018; the second on Saturday, 14 July 2018 in Paradera; and the final one in Noord on Saturday, 21 July 2018.

Participants	Ages	Schools
Total: 43 <ul style="list-style-type: none"> <li>• Female: 37</li> <li>• Male: 3</li> <li>• Unknown: 3</li> </ul>	13 – 21 67% between ages of 16 and 19 years old	EPB Hato, Avond Mavo, Avond Havo, Colegio Arubano, Colegio San Nicolas, Filomena College Mavo, Ibero American High School, EPI, Maria College Mavo, Colegio San Antonio, and Ceque College.
		A couple of participants completed their education at EPB or recently obtained their GED certificate. One participant was attending the University of Leiden in the Netherlands

#### III.1 Analysis

Heart-Centered Youth Leaders of the Heart-Centered Leadership Foundation and a student volunteer from the University of Aruba’s Social Work and Development program helped compile all the written data obtained from the three Impact Cafés. Information was transferred digitally into Excel sheets, where they were then divided into categories relating to the 4 main topics.

#### III.2 Results

During the three (3) Impact Cafés, participants wrote down their experiences, thoughts and solutions on sticky notes. Below is an overview of each main topic, and the categories that they were subdivided into. For example, under the main topic EDUCATION, there were categories such as: Education System, After School, School Buildings, while the main topic of HEALTH has categories such as Health Care, Agriculture, Food/Consumption. The presented results are a summary of the collected information. The complete overview can be found in a separate digital format.

EDUCATION			
Category	Good	Bad	Solutions
EDUCATION SYSTEM	Opportunity to obtain high quality education	Opportunities to study are not distributed equally to all students	Create special curriculums for the career path of the students' choice, that way (during their early years of academic development) they will already know what career they want to pursue
	School helps us with personal development	The system of the school neglects students with social issues.	Create an anonymous box where all students can express their concerns or opinions regarding their school to give school space for improvement
TEACHERS	Good teachers that are willing to help and support you	Teachers have a tendency to teach class with a lack of enthusiasm  Teachers don't always know to teach a subject properly	Provide trainings in order for teachers to improve their way of teaching lessons  Place more pressure onto inspection department to observe teachers behaviors, teaching mannerisms and teachers credibility at school
AFTER SCHOOL	Schools organize activities/events	Not enough after school activities for students of all ages to participate in	Implement more social clubs in school's curriculum and ensure that they receive extra credit for being a part of one.
'BLIJVEN ZITTEN'		We don't have summer school; to help students who struggle with subject material	Students should be given the opportunity to improve their grades in the summer, as to avoid the prospect of staying back ('blijven zitten').  Introduce summer school as a means for students to avoid wasting a whole school year
		Exams are made in English but students are obligated to answer questions in Dutch. (Another reason why students stay back)	If it's an exam for English Language, just make it in English
STANDARDIZATION		In Colegio the standardization comes from The Netherlands, it isn't fair that you receive 1.9+ points for Spanish and 0.7 points for Dutch. (A language that can be difficult for most to dominate)	Bring forth a Exam Bureau where students with difficulties have the opportunity to receive extra points to accommodate their overall scores

SCHOOL COSTS / EXPENSES		Unable to pursue my studies because it's not affordable	Give sustenance, guide and aid to facilitate students in need of financial support to obtain a good education
		School material is not affordable	Create fundraising or save up money to help facilitate students in need of financial support to pursue their studies
SCHOOL BUILDINGS		Government's lack of motivation to restore school buildings in poor conditions	Renovate outdated school buildings
		Schools aren't wheelchair friendly	Adapt school buildings to be more accessible to people with disabilities (wheelchair friendly)
BULLYING / ABUSE		The way that school handles cases such as bullying at school or abuse at home is not adequate	Create a safe box where all students can express their difficult circumstances at school or at home for school to provide a solution. Principals will be consulted to take measures of the situation.
DISABILITIES		Not enough schools for students with down syndrome or disabilities	Government must invest capital into developing modern, standard level of education schools for people with down syndrome or disabilities
SCHOOL COUNSELORS	There are people in school that are always willing to give a helping hand	Lack of internal care structure at school	Provide schools with more school counselors to help them with personal growth and academic development
PERMIT / LEGAL STATUS		It's difficult for students of age to obtain a permit to study in Aruba	Give people the opportunity to obtain a good education while their permit is in the process of being completed and finalized
PHYSICAL EDUCATION	LO in school (gym les)	Gym classes in school don't contain a variation of physical activities (mostly running)	Self-defense class in gym (school)

HEALTH			
Category	Good	Bad	Solutions
Health Care	We have AZV that helps us with health insurance IIIIIII	AZV doesn't send patients in need of urgent care abroad on time	Government must invest capital into wholesome cost opportunities in order to equally provide medical health treatments or medical care that they desperately need
Agriculture	We are able to plant and engage in a healthier lifestyle		We must engage in plantation of our own resources (fruits, veggies, etc.)  Workshops instructing how to cultivate a healthier lifestyle
Dentists	All dentist equipment are clean to avoid the prospect of patients contracting dental illnesses	AZV doesn't cover dental braces fees after you've reached 18	
Recreation/ Sport	All sports centers are great for motivating and stimulating a healthier lifestyle	People do not engage in work out activities	Raise awareness and educate people on healthy lifestyles
	We have activities around the island that promote good health and exercising	People are conscious of the risks of having an unhealthy lifestyle, they simply choose not to cultivate a healthier lifestyle	
Health in Schools	School upholds a good standard for maintenance of the food given to students	School cantinas have low maintenance, resulting in food being made in a filthy environment  School cantinas sell unhealthy food at irrational prices	Have healthier and cleaner cantinas in school  Require inspections for all school cantinas to solve food related problems and create room for improvement
Prevention	Famia Plania helps educate and provide aid to young people		

	WGK implicates close attention to obesity (causes, preventions, statistics)		
		Not enough activities/events raising awareness for mental, physical and emotional health	<p>Make well-being and mental health of all people a priority in Aruba</p> <p>Workshops/Debates to emphasize and promote the importance of mental health</p>
Food / Consumption	Variation of supermarkets that provide healthy food alternatives	<p>People do not consume healthy and nutritious food</p> <p>Healthy foods are immensely expensive</p>	<p>Prices for junk food/unhealthy foods must increase (to demotivate consumers from buying it)</p> <p>Make healthier foods more affordable</p>
Doctors/ Facilities	General practitioners ('huisdokters')	It takes far too long to have a doctor's appointment	We need to have more doctors, accredited specialists, nurses working in the health department
		<p>Waiting list for specialists are far too long</p> <p>Patients in need of urgent medical assistance or not treated attentively</p>	<p>We need to have more doctors, accredited specialists, nurses working in the health department IIII</p> <p>Doctors must give attentive medical attention to patients in need of it</p>
	We able to make use of hospital, clinics, doctors health and medical services	Medical health facilities have old machines and useless equipment that aren't efficient enough to help diagnoses or discoveries	Better and faster medical urgent assistance to people in clinics or hospitals with critical condition II

PARTICIPATION			
Category	Good	Bad	Solutions
Sports	Participate/ train different sports (football, volley)	Competition  Limitations to the sport of your choice	Organize more sports activities and courses
	Sports as a way to follow dreams	You are ridiculed if you use sport as a means to lose weight	Give motivation to those who aspire to have a healthier lifestyle through sports
	Sports as a means to reduce stress	Unable to participate in sports due to (their) parents	
		Unable to participate in sports because of cost expenses II	Government can invest more capital into sport and culture  Collect/Recycle/Reuse Sports Materials that are still in good condition so others in need of it may use it
Personal Development	Insight II (seminar)  Debates  Step outside of your comfort zone	Sometimes Seminars/Trainings can be expensive	More seminars/trainings that encourage teamwork and creativity  Teach and encourage youngsters to expand their comfort zones
	Participation and Engagement		Opportunity to participate in seminars gives us the chance to develop ourselves.  Opportunity to socialize and connect with people
			Implement more ice breaker activities  More programs for self-esteem development and development of character  Give broad variation of activities/workshops for youngsters to learn from II

Parental Involvement	Parents can applaud you and help you reach your objectives	Parents make it difficult for youngsters to approach them  Youngsters are unable to express themselves because their parents	Guidance/Seminars for parents on how to raise/treat their children  Parents must motivate and support their children to create an open and trustworthy atmosphere
	People of all social class are able to express themselves	Unable to express opinion, because I'm a foreigner	If we implement equal participation no one will be left behind
	Civil society participation of all people decreases the pressure that the government has to persevere with everything	A lot of the youth are segregated  Most of the time, the youth are not included  Youth don't receive enough chances to provide their perspective to social issues	More youth inclusive events where they can be themselves without fear of judgment
Inclusiveness		Children/People with disabilities are denied participation	Show the abilities of people with disabilities through documentaries, movies, shows  Educate children and adults alike to treat people with disabilities with respect

PROTECTION			
Category	Good	Bad	Solutions
Sexuality	I'm comfortable with my sexuality	Insufficient sexual education	Start to educate children at a very young age
		In our society, it is still taboo to speak of our sexuality  Unable to express concerns about sexuality, because it isn't openly spoken about in our society	Let children decide their own faith, don't force them to believe something
		LGBTQ+ people feel unsafe in the community, fear others will harm them for being themselves	

Public Safety	A safe neighborhood that I can count on	Unable to walk safely in my neighborhood due to assassinations	Implement Neighborhood Watch
	Aruba feels safer than most places around the world	Insufficient vigilance/security in the neighborhoods  Unable to walk alone at night	
		Insufficient protection and attention  Cat call  Inappropriate people walking the same street as me	
Family	Friends and family can make you feel safe	Unable to feel safe because of my parents  Sexual abuse in families  Children and adults that come from broken homes of abuse, molestation, etc.	A seminar/ training that teaches father, mother, guardians how to recognize abuse and how to deal with it
Social Services	We have a variation of different foundations that help people that also have a confidentiality policy  There are people that can help you	Unfortunately not everyone gets the help that they need	Anyone who is in bad situation or comes from a broken home should be provided with immediate social services  Every school in Aruba needs a psychologist or a social worker
Law and Justice  / Police	We have a low criminality rate compared to other countries	Too many unsolved/closed cases regarding sexual assault / murder, etc.  Criminals are not given adequate prison sentences, therefore they are consistently in and out of prison	Make an after prison program, in order to help them rehabilitate in our society a civil and wholesome person  Give youngsters in prison guidance and help them rehabilitate into society when they finish their sentence
	We have police and ambulance	Police pay attention to the wrong things	Police officers must recognize all kinds of crime

		We have a lot of police, but we still don't feel safe  Insufficient police vigilance in the neighborhoods	
Health Care	We have organizations that provide you with methods to avoid pregnancy	Teenagers engage in sex through curiosity, but get pregnant due to insufficient sexual education	Educate young people through sexual education programs at school on how to engage safe sex
Assault / Harassment		People get physically/sexually assaulted and public services react when it's too late  Cat calling	Awareness programs about sexual/verbal/physical assault  Self-defense class in gym (school)
	Bullying in school has decreased due to awareness	People still engage in bullying at school  Problems such as bullying or abuse in school is never resolved	Consequences for bullying/mistreatment of others in school  If all students cooperate together, we can prevent the prospect of bullying
		Students are not provided with sufficient help to their issues	Teachers must be given trainings to be equipped and prepared to handle difficult matters that students may have  Implement a new system in school in which students in need of help can communicate their troubles through the use of a safe box
Disability		People have a tendency to underestimate people with disabilities and treat them as if they were insignificant	Bring awareness campaigns regarding people with disabilities and how to be cautious of it in a humane way
Community	There will always be someone who can relate to what you are going through	Unable to be yourself due to fear of judgment	Safer environments that are free of judgment to be ourselves  More space for us to express ourselves openly

## Thanks and Gratitude

The launch of Impact Café would not have been possible without the helping hands and hearts of our youth team, volunteers, and sponsors. On behalf of Heart-Centered Leadership Foundation and Aruba Youth Impact, we would like to thank **CEDE Aruba** for financing the project. Thank you for standing by us and believing in our work with and for our youth!

A heartfelt thank you to **Futura** and **Aruba SDG Commission** for believing in our project and helping us connect with other organizations. Thank you to our sponsors **Office Systems** for providing the materials used during the Impact Cafés, to **Sams** for providing gift certificates that were raffled among the participants, to **Aruba Tourism Authority** for sponsoring the filming of the Paradera Impact Café, and to **Compra Ltd.** for sponsoring snacks and drinks for the activities.

A big thank you to **Ms. Clementia Eugene** for helping behind the scenes and providing a wonderful and interactive workshop for our 'hosts' to learn the basics of group dynamics.

And finally, thank you to the volunteers, our **Impact Café Team**, who were busy behind the scenes before, during, and after each Impact Café activity. At the head of the team was **Xaui Thijsen**, our team leader. Thank you for showing true leadership, and for exemplifying what it means to be a heart-centered leader! Thank you Xaui!
