- ❖ Empowering women and girls to alleviate the security threats in their community especially the issues of rape & domestic violence
- ❖ Enabling local communities to identify and access avenues for redress of violence against women and girls
- ❖ Practical actions by government to eliminate violence against women and girls in terms of policies implementation.
- ❖ Increasing women participation in decision making processes at all level has been a challenge for government
- ❖ Opportunities for economic empowerment for women – what are the policies in place for women
- ❖ What are the mechanism put in place by government to challenge the impunity of people who violate the rights of women and girls especially where the judiciary is very weak in Liberia
