### **Back grounds:**

Over the decade 100's of Young youths lost their lives and 1000's more at risk of losing their lives due to negligence of accountability at Schools specifically "BC schools" therefore group of parents, local organizations and officials came together to put together an action plan to save lives of our youths.

From last few decades School officials were on denial and failed to accept that students are being recruited from BC schools "Specifically Surrey Schools" as per counselor Linda Annes.

Young youths are getting recruited from Schools and losing their lives prior to their 25th Birthdays. Many parents, brothers, sisters and individuals lost their love ones and are traumatized, devastated and feels helpless as there isn't any proactive actions to stop their love ones from going into graves or jails.

Few Recent incidents:

- David Weisgarber broke down in tears Tuesday night speaking about his son, 14-year-old Tequel Willis, who was gunned down in Surrey, B.C., not 24 hours earlier.
- In an alleyway near Panorama Secondary School in Surrey where a youth was stabbed last week, another fight has occurred – this time involving what appears to be a gun. Officers are aware and have already identified some of the individuals believed to be involved
- Police say they're investigating after a child found a gun on the grounds of a Surrey, B.C., elementary school.
- Two teens were injured following an assault with a weapon at a Surrey high school on Tuesday afternoon.

**Top Solutions:**

- Surrey School district founded in 1906 currently operating schools in City of Surrey, City of WhiteRock and rural area of Barnston Island, Surrey board of education must be splitted into two or three. City Of WhiteRock and Barnston Island needs their own Board of education for better and improved education, accoutability and results. Smaller classes and District will bring better accountability towards education and

safety of our Youths

- Schools needs "Whistleblower" system so that any student, parents or staff can annoumously complaint or raise concerns
- Schools must have student union representing students (secondary/high school students should run the program and can include elementary schools in their union as well). Student union must have access to public funds to represent students incase of legal battles with school district and administrations. Student union leader must be involve in all school admistrative decisions.
- Clearly posted School of conducts including anti discrimination, charter of rights, students and Youths rights
- Police needs to patrol out side of schools and shouldn't be inside of school. School administration should take full responsibility to keep their schools safe and protected
- Better and advanced Survellence systems with backup data storage system upto 6 months
- Contracted/monitored school washrooms to improve santitation and security (Often gang recruitments, drug activities happening inthe washroom and to control that the washrooms needs to be monitored and controlled just like bars/clubs)
- Eliminate SafeSchool program and bring better and advance program as SafeSchool program is outdated, over cluttured and not helpful and not preventable.
- Unannounced audits by Ministry of education and Ministry of Children
- More Student incentive programs including more sports and educational events

**Conclusions:**

It is evident that youths lives are being targeted in schools. Youths experience Discrimination, bullying, harrasment and they dont currently have any sufficient support at schools therefore they are getting into drugs and they are being recruited into gangs and then getting controlled by gangsters to bring violance inthe community.

It is evident that smaller school district means better accountability and results, it is evident that smaller school districts can implement changes much faster than the larger school districts.

It is evident that Youths who get involve inthe gang in their teens, they dont get to celebrate

their 25th birthday and often get shot or get into jails and never able to live their life peacefully.

It is evident that schools and officials are on denials and not accepting any responsibility perhaps treating young childrens just like hardcore criminals.

It is evident that School administrations and officials often use the phrase "We can't disclose any information because of Youth privacy" but then never take any steps towards the Youths safety and Youths safety often get neglected by officials and administrations.

It is evident that majority of Youths who are facing legal difficulties or the one who lost their lives are due to negligence of duty by Schools, Police and Justice system.

It is evident that Youths lives are at risk and serious actions must be taken to save our Youths.

Cheers,

Khalid Ahmad
