Extraditions: 2018 to 2022

The extradition statistics relate to the extraditions authorised for the years 2018 to 2022.

Information disaggregated by sex is only available for extraditions from and transits through Germany together, and by nationality only. As this information cannot be mapped to the actual extradition statistics, it has not been included here.

The grounds for extradition have not been listed, given that extradition is undertaken for the purpose of criminal prosecution or the enforcement of a sentence and the grounds for extradition are thus generally an extraditable offence.
