Overview of Projects funded under the Asylum, Migration and Integration Fund 2014 - 2020

1. Policy Context

The overall objective of the European Union's Asylum, Migration and Integration Fund (AMIF) 2014-2020 is to promote the efficient management of migration flows and the implementation, strengthening and development of a common EU approach to asylum and immigration.

The Fund has four specific objectives:

- a. to strengthen and develop all aspects of the Common European Asylum System, including its external dimension;
- b. to support legal migration to the Member States in accordance with their economic and social needs, such as labour market needs, while safeguarding the integrity of the immigration systems of Member States, and to promote the effective integration of third country nationals (TCNs);
- c. to enhance fair and effective return strategies in the Member States which contribute to combating illegal immigration, with an emphasis on sustainability of return and effective re-admission in the countries of origin and transit; and
- d. to enhance solidarity and responsibility sharing between the Member States, in particular towards those most affected by migration and asylum flows, including through practical cooperation.

2. AMIF in Ireland

Ireland's National Programme AMIF was approved by the European Commission on 21 March 2016. The EU Funds Unit in the Department of Justice and Equality has been designated as Ireland's Responsible Authority for the AMIF. The funding available to Ireland under the AMIF will be used over the lifetime of the Programme – the eligibility period extends to 2022 – to support actions that will help to achieve the National Objectives set out in the National Programme.

In 2016, a Call for Proposals was issued and 20 Projects were selected from 45 applicants. Over €4.5 million was committed under this call.

The Projects selected for funding will receive 75% of the eligible project costs. The applicant organisation will be required to provide the 25% matching funding necessary for the project.

This booklet describes the 20 Reception, Integration and Capacity Building projects funded under the AMIF following the 2016 Call for Proposals. Projects relating to Resettlement, Relocation and Return activities will also be supported by the AMIF.

Introduction

This booklet outlines details of projects funded under both the **Gender Equality** and the **Integration and Employment of Migrants** streams of the European Social Fund (ESF) Programme for Employability, Inclusion and Learning Operational Programme 2014-2020 ('PEIL').

The European Social Fund (ESF) is the European Union's primary financial instrument for investing in people. The broad objectives of the ESF are to help prevent/ combat unemployment; to make Europe's workforce and companies better equipped to face new challenges and to prevent people losing touch with the labour market through investment in education, skills and employment support.

(More information can be found at www.esf.ie).

The PEIL is the Operational Programme through which the ESF is being applied in Ireland and takes into consideration and complements actions in the human capital area at EU and National level that aim to make Europe a more attractive place in which to invest and work, enhancing knowledge and innovation for growth and creating more and better jobs.

Integration and Employment of Migrants

This Activity is aimed at legally resident migrants who are experiencing barriers to participation and employment because of language difficulties, lack of training or social exclusion. This Activity proposes to increase the levels of employability of the participants.

The specific categories of persons targeted by this Activity are as follows:

- EEA Nationals who are resident in Ireland.
- Third Country Nationals (TCN) with permission to enter employment in Ireland.

'Third-country national' means any person who is not a citizen of the Union. Reference to TCN shall be understood to include stateless persons and persons with undetermined nationality.

Following the 2016 Call for Proposals, €3.3 million was made available to five projects funded under this stream.

Gender Equality

The Gender Equality activities are aimed at women in particular and are in two strands:

- Strand A is aimed at women who are currently detached from the workforce and who are interested in entering or re-entering the workforce.
- Strand B is targeted at supporting business women, irrespective of their economic status, to realise their full business potential.

Following the 2016 Call for Proposals in 2016 just over €4 million was made available for Strand A, Women Returning to the Workforce, while €1.2 million was made available for Strand B, Women's Entrepreneurship.

18 projects are funded under both strands of the ESF PEIL Gender Equality Funded Programme.

Communities Integration Fund

This Integration Programme is funded by the Office for the Promotion of Migrant Integration at the Department of Justice and Equality

Grants totalling approximately €500,000 are being made available to 131 projects nationwide to assist communities in playing a practical role in supporting the integration of immigrants in their area. This is a one year funding programme following an open call for applications. The types of groups include sporting organisations, voluntary and community groups, faith based groups and cultural organisations including theatre groups, youth clubs and after-school clubs.

Funding is being granted to projects that provide integration measures in one or more of the following ways:

- Increasing mutual understanding between the host community and the local immigrants;
- combating racism and xenophobia;
- promoting the integration into Irish society of vulnerable or socially-excluded immigrants;
- promoting integration in schools;
- promoting integration in the youth sector;
- promoting the involvement of immigrants in sport, volunteering and cultural activities.
